ABOUT FOTOKAIN

I have been working as a national and international freelance photographer for more than 22 years. Based in Frankfurt and Berlin I offer a widely spread and fully integrated production network.

During this time I have acquired valuable, in-depth experience dealing with advertising, (business) portraits, the music industry, celebrities, fashion, documentaries and media coverage. It starts with the clients briefing and becomes an integral part of my daily creative process. This experience flows into my campaign work.
